Analytics (coming soon)	Included

**you can request a free two-month pilot to test Unicheck before purchasing*

Unicheck automates all the stages of checking student works for originality inside Canvas LMS. Thanks to a new Canvas Plagiarism Framework, Unicheck offers a reliable, robust and integrated experience. Users can access Unicheck reports right from their accounts in Canvas LMS. Instructors benefit from the Unicheck functionality without having to sacrifice any Canvas LMS features. A submission workflow for students is the same as in the regular Canvas assignments. Search for text matches is carried out in the background and the search results are displayed in Canvas.

Unicheck is a Canvas Alliance Partner since 2016. We have been closely working with Instructure Team to ensure the best user experience.

We are a community driven company and encourage UEN members to constantly share their feedback with us and receive more tailored experiences with Unicheck.

Thank you in advance for the opportunity to empower your community with efficient tools and make your life easier.

Sincerely,

Serhii Tkachenko

CEO at Unicheck
