

# UEN-TV Health Highlights - March 2017

## Innovations in Medicine

Fridays at 8:30 p.m. beginning March 10

The program explores the latest breakthroughs in research and treatment from some of the top medical and scientific centers in the United States

## Healed: Music, Medicine and Life with MS

Saturday, March 11 at 8 p.m.

A look at how renowned cornet virtuoso Jim Klages persevered and thrived with multiple sclerosis.

## Bell Ringer: The Invisible Brain Injury

Tuesday, March 14 at 9 p.m.

The program explains the complexities of the injured brain, examining what occurs in the brain during a concussion, how researchers are studying physical impact and neurological injuries and the safe protocols for returning to play.

## My Love Affair with the Brain: The Life and Science of Dr. Marian Diamond

Monday, March 20 at 9 p.m.

How can you not fall in love with a woman who carries around a preserved human brain inside a giant flowery hat box? As one of the founders of modern neuroscience, it's no exaggeration to say that Dr. Diamond changed science and society at large in dramatic ways over the course of her career. Her groundbreaking work is all the more remarkable because it began during an era when so few women entered science at all.

## Beth Ames Swartz / Reminders of Invisible Light

Sunday, March 26 at 7:30 p.m.

A woman artist's resolve to choose love and creativity over fear and pain is showcased.

## The Doctor Will See You Now: The Changing Face of Primary Care

Thursday, March 30 at 9:30 p.m.

The evolution of primary care in America and the current health care industry are explored.
