

filter is working as it's supposed to. The search filter/curation tool is working as intended, and searches done by users seem to be for legitimate research purposes as desired.

**Total Searches represented & conducted 10/1/2022 through 12/31/2022 was 2,133,018.**

The 2,133,018 represents 3 months of searches of what looks like 'regular use' across UEN user accounts. The word cloud above represents the most frequently searched terms during the 3 rolling months on the UEN account, UETN account and all accessing accounts. This represents use for October, November & December, 2022.

salem witch trials	perkins school for the blind

**Monitoring Searches Summary update:**

In looking at the most searched terms over the past 3 months, it appears to be of normal school use and for what seems to be student research.

**Filter monitoring**

EBSCO will continue to monitor the filter and make adjustments as needed including adding new terms on an ongoing basis (daily monitoring terms.) New terms added to the filter can take up to 24 hours to be filtered through the content within EBSCO databases. We continue to monitor and tweak our curation methodologies, so that valuable research content is available to users and developmentally inappropriate content is suppressed. At any time, we welcome any suggestions that might further advance this effort.

**Ongoing Action Items:**

- Update Quarterly Report as requested by UEN
- Continue to monitor accounts and searches in schools throughout Utah.
- Communicate with each group of stakeholders should anything change.
